SPECIAL MESSAGE

APRIL 2009

Note from Samone

Greetings,

No one said it was going to be easy to apply spirituality and consciousness to daily life. In my own experience of setting intentions and awakening consciously, I found that doing so is the most challenging task of all. To help me with this, I have extraordinary teachers, here in the physical, but mainly in other dimensions. One that stands out is Menita Ishmil, a 7th level composite being who had his 'last' physical life in ancient Roman times. During that lifetime, he achieved a form of ascension and perfected manifesting techniques that he now shares with those of us truly desiring to

ascend.

It takes work as mentioned, and I am blessed to have techniques to use. Information provided by this Master and the Group Composite in general is priceless. When you brush away the fluff of 3D dramas, and get right down to it - what we truly desire - for most of us, it is the same. We desire on some level to live life in peace, be prosperous, happy, and to feel the connection with the Creator Source Energy. It also takes 'practice.' It is one thing to honestly apply techniques and not have them work. It is quite another to do something once or twice and give up. Yet we have examples in our own lives that show without intention, action, passion and dedication, very little gets accomplished.

So I encourage you to find the passion to seek to remember that you are Divine. Then, set intentions about what that means to you. Take advantage of those around you who are teaching, even the smallest lessons or tidbits of information. Apply it. Practice it. Make it your natural way instead of the exception to the rule. And when a Being, such as Menita Ishmil gives a workshop on manifesting, just go. Doing something to advance your consciousness is ALWAYS for your Highest Good. Fortunately, you don't have to wait. **Menita is giving a free talk in April and a workshop in May called, "Opening the Heart."** It takes from his learned experiences and includes 'upgrades' based on observing what works for us and what does not. For more information on an upcoming talk and workshop, see below.

Be the Divine Being you are in the physical!

"Opening the Heart" Workshop with Menita Ishmil May 22 - 24, 2009

Objective: Learning to master the energy of the bridge (heart chakra) for manifesting in the physical.

Message from Menita:

Greetings Masters,

I am Menita Ishmil addressing you this day on the subject of the heart. The heart that I refer to is the place "within" that occupies the 4th energy center of your beautiful Being. The 4th chakra, as it is called, is the bridge between the 3 upper charkas and the 3 lower charkas. Upper and lower in this case does not mean that one is grander than the other. The heart chakra is the place that you can move anything you desire into your physical social conscious story. This energy field records each and every thought that you have and sends it across the bridge into the 5th dimension to create from the essence that is called God or the Void. Opening the heart has everything to do with manifesting your most beautiful lover to your biggest fear.

***What would happen if you learned to be
the master of this very important energy center?***

You would create a world that cannot be imagined with a human mind. Once the thought is felt in the

body a chain reaction is set in motion. This reaction signals the brain, a part of your 3rd chakra, to send an electromagnetic impulse to the bridge or 4th chakra. At this point, the soul that resides at the gate of the bridge opens to the feeling that will bring forth the desire. To open the heart means to pave the way for complete conscious creation. When you consciously create from the heart you become the magician, the Master. May 22-24, 2009 will be the time for our next gathering, "Opening the Heart". Only 12 masters will be taken as students to learn the techniques of opening the heart. Each one of you will go away from the weekend with tools to move smoothly and comfortably across the bridge to interface with your divine selves. You know who you are!

I honor you all from the Lord God of my Being to the Lord God of Your Being.

**We are One.
Namaste**

Meet Menita Ishmil

Menita Ishmil is a charming, gregarious and wise entity channeled through [Shelia Reed](#). He is the voice of a dimension beyond the Earth plane, revealed as the [7th Level Composite Energy](#). Shelia Reed is the instrument through which Menita shares information about life on the physical plane and beyond. Although Menita is no longer an individual but rather a part of a composite energy, he speaks of his last incarnation on the Earth plane. During this incarnation, he was known as Guiseppe Luminati, a Roman soldier, born in the year 25 AD. At the age of 45, he left the Roman Army to become a student of Philosophy. Guiseppe perfected a

manifestation technique known as *Contemplation with Intent*. Through this technique, he was able to consciously manifest his own transition from the physical world into the light of the 7th Level Composite Energy. The 7th Level Composite energy is the highest level of consciousness that spirit reaches without ascending with the three-dimensional body.
